Independent Lens explores mental health & wellness

These upcoming Independent Lens specials explore health and wellness topics, including mental health, generational trauma, living with chronic illness, and promoting a greater understanding and awareness.

Matter of Mind is a touching story about ALS. Amyotrophic lateral sclerosis (ALS) is a neuromuscular disease with an average survival time of 2-5 years from diagnosis. In this intimate exploration, three people with ALS, or Lou Gehrig's disease, bravely face different paths as they live with this progressively debilitating illness. *Matter of Mind: My ALS* premieres Monday, May 1 at 9:00 pm.

Sam Now is a coming-of-age documentary that follows Sam Harkness from age 11 to 36 as his once-average, middle class Seattle family is heartbroken and unsure of what to do after his mother suddenly leaves them. Through Sam's 25 year quest for answers, the film explores intergenerational trauma and the relationships of mother to son, mother to family, brother to brother and the turning points of family dysfunction and healing. Woven together with home movies lovingly crafted by Sam's half brother, we witness a boy grow up grappling with the ripple effects of a singular traumatic event. *Sam Now* premieres Monday, May 8 at 9:00 pm.

Our last film is an autobiographical exploration of survivorship. New Orleans journalist and filmmaker Jasmín Mara López unabashedly shares her process of healing from childhood sexual abuse. After Jasmín discloses to her family she'd been abused by her grandfather, she liberates others to come forward in a story of confronting a culture of silence over generational trauma. *Silent Beauty* premieres Monday, May 15 at 9:00 pm.

ON OETA

NAM JUNE PAIK

The father of video art and coiner of the term “electronic superhighway,” Nam June Paik was one of the most influential artists of the 20th century.

Born in Japan-occupied Korea, Paik studied as a classical musician before moving to Germany in the 1950s. Forever changed after encountering avant-garde composer John Cage, Paik became a member of the influential experimental art movement Fluxus, which created new forms of art and performance. Eventually immigrating to the United States, he became fully engaged with television and video art in a way that would revolutionize how the world thinks of image-making in the electronic age. *American Masters: Nam June Paik - Moon is the Oldest TV* premieres Tuesday, May 16 at 9:00 pm.

Sometime in the 1960s, in sunny Sacramento, two Filipina-American sisters got together with other teenage girls to play music. Little did they know their garage band would evolve into the legendary rock group Fanny, the first all-women band to release an LP with a major record label (Warner/Reprise, 1970). Despite releasing 5 critically-acclaimed albums over 5 years, touring with famed bands from SLADE to CHICAGO and amassing a dedicated fan base of music legends including David Bowie, Fanny’s groundbreaking impact in music was written out of history... until bandmates reunite 50 years later with a new rock record deal. With incredible archival footage of the band’s rocking past intercut with its next chapter releasing a new LP today, the film includes interviews with a large cadre of music icons. Fighting early barriers of race, gender and sexuality in the music industry, and now ageism, the incredible women of Fanny are ready to claim their hallowed place in the halls of rock ‘n’ roll fame. *Fanny: The Right to Rock* premieres Monday, May 22 at 9:00 pm.

Fanny’s groundbreaking impact in music was written out of history... until bandmates reunite 50 years later.
